

Hey!

My name is **ANNA** and I'm **16** years old. My birthday is at the 29 may 1993. I live near Cottbus in a small village with my family and my **cat "Kasimir"**. I don't have any brothers or sisters. We live in a normal house with a beautiful garden.

If I have to describe me with a few adjectives, I would say that I am **open minded, crazy, honest, neat, ambitious** and also a little bit shy to other persons I don't know.

I love it to do crazy things with my **friends** and have many fun with them. We often go **shopping** or **relax in the park, cook together** or make **film-evenings**. I **like** it to make **SPORT** and I play **volleyball** in a team in my school. Naturally I go at every match of my favourite soccer club:

ENERGIE COTTBUS. At home I often play **table tennis** with my parents. At the last years I played **badminton**, but at the moment I cannot because the school ends too late.

At every second weekend you can find me at events. **I serve drinks at other people**. I think it is really cool to work, because you have a lot of fun with the other workers. I'm **interested in other cultures** too, and so I love it to travel in my holidays. 3 years ago I was in Namibia with my family and it

was really fantastic: the wonderful nature, the animals, the friendly people.. all was really beautiful. Since this trip, I love Namibia. At the autumn holidays we fly every year to Spain or Greece to relax at the beach and make a little sightseeing-tour.

I don't like it if people say wrong things about me and my friends, we have too long school, mountains of homework, bad weather, friends has no time for me, I have trouble with persons, I don't get what I want or something like this.
