
That's me!!

My name is **Anne Wohlgemuth** and I'm 16 years old. My birthday is on 5th October 1993 and I live with my parents and my little sister Clara (nine years old) on the outskirts of Cottbus.

I go to Max Steenbeck grammar school in the 10th form. Biology, chemistry and maths are my favourite subjects. I like them very much and so I go to extracurricular activities in biology and chemistry. I don't like history and computer studies. If you ask me history is boring and computer studies are difficult.

In my freetime I play volleyball, it's my favourite sport. I train twice with the team of my association and once with the team of our school. Both teams are great and have very friendly and good girls. So on the one hand we've good training and the other we've much fun.

Moreover I play accordion since nine years. I think it's an interesting and a very varied instrument. I'm interested in Irish, French and Spanish pieces and so I love to play them.

I also like listening to music and I prefer ABBA, Ich und Ich and Herbert Grönemeyer but I haven't a favourite band or a favourite singer.

At the weekend I go to rehearsals in the music school, have appearances with the orchestra or alone, have volleyball tournaments, meet friends, relax or enjoy the too little time with my family.

Finally I list some general things I like and I dislike.

I like: orange, sunsets, tea, chocolate ice cream, good films and books, candles, yellow, noodles, Italy, listen, gymnastics, other cultures, help, bikes, red, travelling, all seasons, Olympic Games...

I dislike: unfriendly people, bad illnesses, pink, being sad, rice pudding...
